

TowerHunter Executive Search Announces Exclusive Alliance with Europe's Herbold Fischer Associates

PHOENIX, AZ (February 26, 2008) – Like some of the largest corporations in the country, TowerHunter Executive Search has formed an exclusive, international alliance to create a global presence with local roots. Europe's Herbold Fischer Associates will bring new opportunities for TowerHunter's American clients that most other mid sized search firms today cannot offer.

"This exclusive relationship is unique for a mid sized firm – formed without sacrificing the agility and responsiveness that makes TowerHunter so attractive to demanding clients," said Scott Smith, TowerHunter Managing Partner. "TowerHunter's reputation for customizing its approach to meet each client's unique need and culture is an exceptional fit with HerboldFischer's client-focused search practice."

Through TowerHunter's offices in Phoenix and Washington DC, and Herbold Fischer's Frankfurt office, the firms will complement each other's work on behalf of their respective clients throughout North America and Europe.

"The compatible philosophies of our firms, and the uncompromising commitments to integrity and exceptional outcomes, portend a productive alliance to benefit our clients," said Friedbert Herbold, Herbold Fischer Associates.

TowerHunter and Herbold Fischer work with clients in industries such as automotive, healthcare, manufacturing and financial services. Both organizations immerse themselves in their clients' business and objectives, and accept only those assignments where there is full confidence in their ability to deliver a guaranteed result. In addition, both firms emphasize each candidate's cultural fit, as well as their business acumen.

TowerHunter's clients have unique needs in markets within and outside of the United States. When their business requires a presence overseas, this alliance provides the reassurance to count on TowerHunter to meet that objective.
